

Peoples Federal Credit Union (PFCU) is committed to protecting the privacy of each member. You may visit our web site on the World Wide Web without disclosing to PFCU your identification or information about yourself. There are several areas, however, that will collect certain information about you and we want you to be aware of how that information is handled.

If you visit our web site, PFCU collects and stores information on the domain you use to access our web site, the internet address of the site from which you linked directly to the PFCU site and the date of time of your visit. This information is used to measure the number of visitors to the various pages of our site to better serve our members.

If you send an email, PFCU collects and stores personal identifying information in order to process your email, form or application. This information is not sold to any third party vendors. Due to the volume of email activity, items received are deleted after they are answered or completed.

If you visit a secure web site, such as *Peoples 24/7* you will be asked for personal identification numbers (PIN's), which will allow you access to the **MEMBER ONLY** section of our web site. This information enables PFCU to regulate authorized entry to the **MEMBER ONLY** area of our web site and to measure member usage. Any identifying information gathered is not sold to a third party vendor.

If you link to another site from the pages of PFCU you are leaving our site, and we cannot be held responsible for any information that may be gathered at a linked site. PFCU makes every effort however, to ensure that all linked sites follow similar privacy procedures as PFCU so as to offer our members maximum security and privacy.
